ALI ELSAYED JABR

Computer Science & Artificial Intelligence Student | Aspiring AI Engineer

Cairo, Egypt • +20 1080467497 • agabr7726@gmail.com

LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Second-year Computer Science and Artificial Intelligence student at Al-Azhar University with a foundation in C++, Java, JavaScript, and Object-Oriented Programming. Hands-on experience developing software and web applications through academic and personal projects. Currently participating in the Digital Egypt Pioneers Initiative (DEPI) and contributing to a team-based employee attrition project through data cleaning and preparation. Seeking an internship opportunity to build practical skills in Artificial Intelligence, Machine Learning, and Software Engineering.

TECHNICAL SKILLS

Programming Languages: C++, Java, JavaScript (ES6+)
Web Development: HTML5, CSS3, DOM Manipulation, LocalStorage
Data & AI: Python, Pandas, NumPy, Data Cleaning
Programming Concepts: Object-Oriented Programming (OOP), Problem Solving
Tools: Git, GitHub, Visual Studio Code

PROJECTS

Staff Guard — Employee Attrition Project
Python • Pandas • NumPy • Git • GitHub

- Contributing to a team project focused on identifying employees who may be at risk of leaving an organization.
- Cleaned and prepared a dataset containing 1,470 employee records for subsequent analysis and model development.
- Checked the dataset for missing values and duplicate records as part of the data-cleaning process.
- Prepared the cleaned dataset for the next stages of exploratory analysis and machine learning; these stages are still in progress.

Pharmacy Management System
Java • OOP • JavaScript • LocalStorage

- Developed a pharmacy management application applying Object-Oriented Programming principles with an interactive web interface.
- Implemented product management, cart handling, and dynamic tax calculation features.
- Used LocalStorage to maintain application data on the client side.

Task & To-Do Manager
HTML5 • CSS3 • JavaScript

- Built a responsive task-management application using vanilla JavaScript and DOM manipulation.
- Implemented task creation, completion, and deletion with LocalStorage persistence.

Personal Portfolio Website
HTML5 • CSS3 • JavaScript • GitHub Pages

- Designed and deployed a responsive portfolio website to showcase technical projects.
- Implemented responsive navigation and interactive Light/Dark Mode functionality.

EDUCATION

Bachelor's Degree in Computer Science & Artificial Intelligence
Al-Azhar University, Cairo, Egypt | Second-Year Student

Relevant Coursework: C++ Programming, Java (OOP), Web Development, Operating Systems, Computer Fundamentals, Calculus

TRAINING

Digital Egypt Pioneers Initiative (DEPI) — Current Trainee
Participating in technical training and collaborative project work, including data preparation for the Staff Guard employee attrition project.

LANGUAGES

Arabic: Native **English:** Good Command
